

## French

At Settlebeck School, our French curriculum is designed with a clear and ambitious intent to instil a love for language learning, foster cultural awareness, and equip our students with the linguistic skills necessary to navigate an increasingly interconnected world. We believe that the study of French is not only an academic pursuit but also a gateway to a deeper understanding of diverse cultures and global perspectives.

Rooted in the National Curriculum, our intent is to provide a dynamic and enriching learning experience that nurtures:

- language proficiency
- cultural appreciation
- real-world relevance
- independent learning
- global citizenship

The languages curriculum is designed to enable students to express their ideas and thoughts in another language both orally and in writing. In addition we foster the love of reading by enabling our students to read great literature in the native language.

In summary, our French curriculum at Settlebeck School is designed to empower students with linguistic proficiency, cultural awareness, and the skills needed to thrive in an increasingly globalized society. We aim to inspire a lifelong love for language learning and cultivate responsible, open-minded global citizens who appreciate the importance of languages in connecting with the world.
