

Mathematics

At Settlebeck School, our Mathematics curriculum is crafted with a unfaltering commitment to developing confident, resilient, and versatile learners who are equipped with the essential mathematical skills for success in an ever-evolving world. Aligned with the National Curriculum for Mathematics, our intent is to provide a comprehensive and enriching educational experience that goes beyond the mastery of mathematical concepts.

Our Mathematics curriculum aims to:

- ensure mastery of fundamental skills
- promote mathematical fluency
- promote mathematical literacy
- emphasise real-world application
- encourage critical thinking
- develop financial understanding

Our curriculum is designed to enable students to move from 'novice' to 'expert', deepening their body of mathematical knowledge, enhancing their problem-solving skills and mastering mathematical fluency.

By delivering a rigorous and inclusive Mathematics curriculum, we aspire to instil in our students a love for the subject, a deep appreciation for its applications, and the confidence to approach mathematical challenges with enthusiasm and resilience. Through their journey with mathematics at Settlebeck School, students will not only acquire essential skills but also develop a mindset that empowers them to tackle complex problems and contribute meaningfully to the mathematical landscape of the future.
